# Dear Colleagues and Friends,

We are pleased to invite you to the upcoming "**Oculoplastic Today 2022**" conference that will be held on **April 7-8, 2022, in Tel-Aviv**.

The Oculoplastic Today Meeting was supposed to be held on April 2020. This conference was postponed due to the COVID-19 pandemic.

A year later we are happy and excited to revive the meeting.

Israel is the first nation to emerge from the Covid-19 pandemic by vaccinating the majority of its population in an attempt to return to normality. Here, we can meet, go out to restaurants and bars and arrange conferences under restricted health regulations to ensure the safety of the participants. It would be great to finally meet face to face and not through computers screens.

10 years have passed since the first "**Oculoplastic Today**" conference. Over the years, the field of oculoplastic surgery has evolved greatly: advanced technologies, new drugs and surgeries have come into use. At the conference we will examine their impact on our work as well as try to provide a glimpse into the fascinating decade ahead.

The "Oculoplastic Today 2022" conference's faculty will include world leading experts. The conference will focus on both reconstructive and aesthetic Oculoplastic Surgery.

The conference will be held in Tel-Aviv, one of the most vibrant cities in the world. Titled the 'Mediterranean Capital of Cool' by the New York Times, this is a 24 hour city with a unique pulse, combining sandy Mediterranean beaches with a world-class nightlife, a buzzing cultural scene, incredible food, UNESCO recognized architecture, and an international outlook. Don't miss it!

We look forward to welcome you to the "**Oculoplastic Today 2022**" and hope we will all use it as a springboard for continuing an active dialogue and cooperation in the future, and for strengthening our professional and personal relationships.

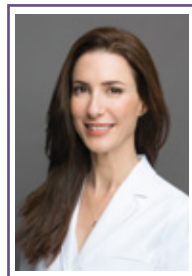

**Yours sincerely,**

**Iftach Yassur**
